

OZONE TEST CHAMBER SIM 8000

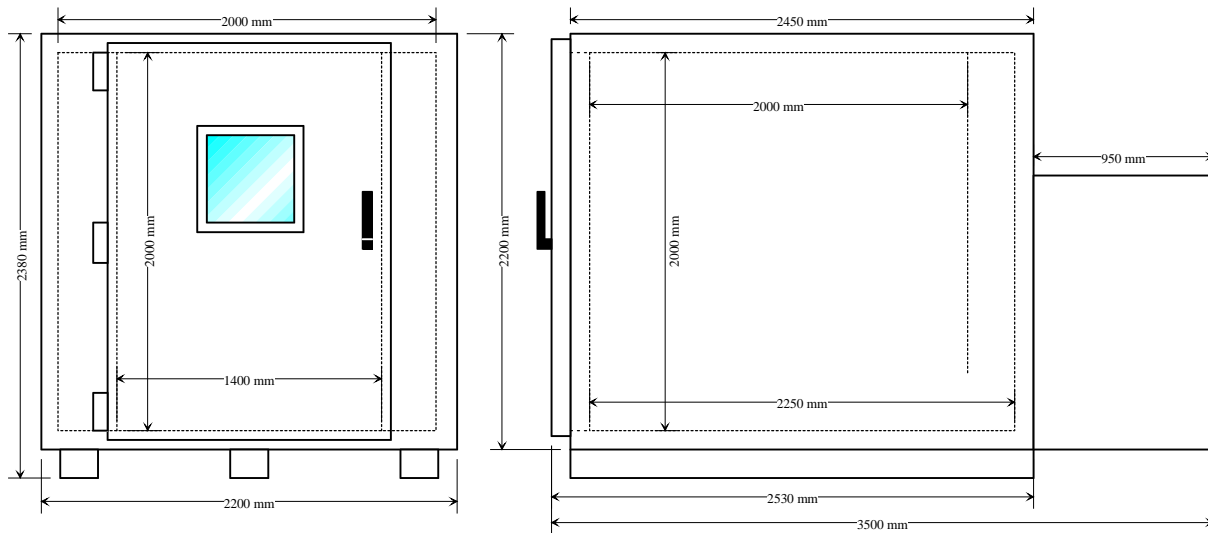

Judge double ageing chamber referring DIN and ISO standard for big rubber products like lorry tires.

FEATURES

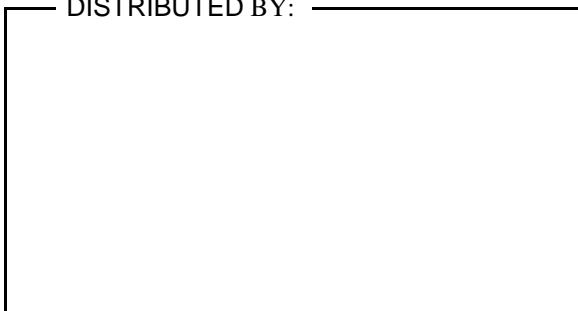

- Ozone climate control
- Optional test equipment like UV-radiation and fogging
- Rotation and dynamic tools can be built in
- Inside coating in stainless steel, welded
- Wide tight doors (with safety system) for movement of heavy goods
- Remote control of all test ranges
- Full automatically operated with synthesizing and synchronisation
- Software for data storage, internet compatible

SPECIFICATION

| | | |
|-------------------------------|---|----------------------------------|
| Approvals: | DIN 53509, ASTM D1149, ISO 1431 | |
| Volume of chamber: | 8 m ³ | |
| Ozone range: | 25-200 PPHM (or on request) | |
| Temperature range: | -35°C ... 130°C (or on request) | |
| Humidity range: | 10...95% R.H. 100 % with fogging equipment | |
| Software: | AMACS 2.1 | |
| Recorder: | OPTION | |
| Climate : | Chiller | |
| Dimension of chamber inside: | Width | 2000 mm |
| | Height | 2000 mm |
| | Depth | 2000 mm |
| Dimension of chamber outside: | Width | 2200 mm |
| | Height | 2380 mm |
| | Depth | 2530 mm / 3500 mm (with chiller) |
| Dimension of door: | Width | 1400 mm |
| | Height | 2000 mm |
| Weight | 900 kg | |
