

Silt Density Index Testing

PORTABLE SDI TEST ASSEMBLY

direct SDI™

Model No.: SDI-2000

(Replaces Old Model No.: SDI-1000)

Completely assembled in a portable, **COMPACT** case, ready for on-site testing. Includes ASTM instructions for measuring silt density index.

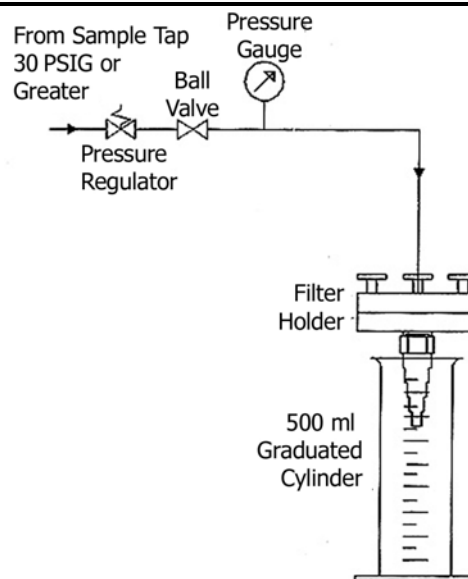

Assembled with:

- Filter Holder
- Pressure Gauge
- Pressure Regulator
- Ball Valve
- Graduated Cylinder
- Thermometer
- Tubing
- Filter Tweezers

(Filters not included – sold below)

Also Available: Manual SDI Kit with Millipore® brand filter holder – Model No. **SDI-2000-MIL** Pump Assembly Kit for testing with less than 40 psi. Assembled with Booster Pump, Power Supply, Pressure Regulator (booster pump kit sold separately)

SDI-PU: 115-120V/60Hz • **SDI-PE:** 230V/50Hz • **SDI-PJ:** 100-110V/50-60Hz
